

# 8608 Staticide® PL40 Premium Penetrating Lubricant

## *Industrial Strength General Degreaser*

This peak-performance degreaser penetrates deeply to displace moisture and inhibit corrosion on electronic and electrical components. Not only is this dynamic universal degreaser suitable for loosening frozen moving parts such as hinges, joints, and solenoids, it provides lasting protection against metal oxidation.

The lubricating properties of this restorative formula reduces friction between mechanical parts making it ideal for returning unusable metal parts back to functionality. Safe to spray around plastics.

### **Ideal for the following applications:**

- Moisture displacement for electronic and electrical components
- MRO and Industrial manufacturing
- Mechanical parts cleaning and lubricating

### **Features:**

- ❖ **Flammable**
- ❖ **High solids for superior lubrication**
- ❖ **Rust prevention**
- ❖ **Corrosion inhibitor**
- ❖ **Low odor**
- ❖ **RoHS compliant**
- ❖ **Made in USA**

### **Directions:**

Shake well. Spray 4 to 6 inches from surface to be lubricated and protected. Use extension tube for precise application into hard to reach areas.

For industrial use only. Read SDS carefully prior to use.

### **Material Compatibility:**

ABS	Good
Buna-N	Good
EPDM	Good
Graphite	Good
HDPE	Good
Kynar™	Good
LDPE	Fair
Lexan™	Poor
Neoprene	Fair
Noryl	Fair
Nylon™ 66	Fair
Cross-linked PE	Good
Polypropylene	Good
Polystyrene	Poor
PVC	Good
Silicone Rubber	Fair
Teflon™	Good
Viton™	Good

### **Product# 8608**

11 oz (312g) aerosol / 12 per case
